

Connecting Military Families to Services

Last Modified on 12/04/2019 3:28 pm EST

TXServes—San Antonio is committed not only to providing first-rate support for its large service member and veteran community but also to offering easy access to an array of services for military families who often encounter unique issues related to the military lifestyle. It is a local branch of AmericaServes, the nation's first coordinated network of public, private and nonprofit organizations providing militaryrelated support services.

The program has expanded its trouble-free access to a network of providers for veterans, their families and active duty military families, to enroll for support services through a single eligibility verification system. That allows them to access a range of support services, including legal guidance, housing, employment, medical, financial, education and transportation.
