

FEEDING MARINES: HOW DESIGN THINKING CAN GET FOODS TO MARINES WHEN & WHERE THEY NEED IT

Last Modified on 02/19/2020 3:33 pm EST

How might we make mission sustainment food most mobile and accessible to Marines? Join Marine Corps Installations Command's (MCICOM) Installation neXt (I-neXt) team in an interactive and collaborative session to address this challenge impacting our Marines every day. In this pre-conference session, you will utilize innovative approaches to problem-solving, learn the fundamentals of I-neXt's Solutions Process, and design low-fidelity prototypes with a team to help fuel tangible change.
