

COLLABORATIVE INNOVATION: THE INDIANA DEFENSE SCRUM

Last Modified on 02/19/2020 3:49 pm EST

Indiana reimagined the 20th Century Defense Community into what we believe is one more relevant to the complex world of the 21st Century where stovepipes give way to networked ecosystems capable of rapidly deploying optimum solutions to emergent problems and requirements. Referred to as the “Indiana Defense Network,” this ecosystem leverages the power of an integrated digital platform, the agility of the digital thread, the flexibility of advanced manufacturing, the power of collective thinking and the synergy of public-private partnerships to produce optimum solutions to the wicked problems faced by our nation in the 21st Century.
