

HOW TO ANALYZE YOUR RESILIENCE

Last Modified on 02/19/2020 3:49 pm EST

This interactive panel discussion will feature subject matter experts as they explore the tools and strategies that community and installation leaders can use to analyze cyber and climate threats to their critical infrastructure. Among other topics, attendees will hear about a recent cyber attack that crippled the Colorado Department of Transportation and the lessons learned by military and community leaders during the recovery operations.
