

# ACCELERATING THE USE OF AUTONOMOUS VEHICLES ON MILITARY INSTALLATIONS

Last Modified on 11/02/2022 11:42 am EDT

How can emerging technologies, like autonomous vehicles (AVs), transform operations at military bases and U.S. installations? From personnel, warehouse and convoy logistics to medical campus and airfield operations, AVs allow us to increase safety and efficiency in our installation operations. During this panel, our experts will discuss some common challenges, opportunities and AV applications.
