

THE DIGITAL GARRISON: BASE AND COMMUNITY SERVICES AT YOUR FINGERTIPS

Last Modified on 11/02/2022 12:34 pm EDT

Digital Garrison launched in 2020 to provide members of the Army community a single, FISMA-compliant mobile application for accessing installation quality of life services, including IMCOM public information, family and MWR services, and Exchange shopping and dining. Attendees will learn how the app works and how it can be applied to their communities and installations.
